Nachiketa Sets The Tune Of Love Right With 'Tor Isharay'

- The Song Focusing On Inter-Faith Love Released On The Occasion Of Valentine's Day -

Kolkata, 17th February, 2021: Renowned singer **Nachiketa** made a soulful comeback this Valentine's Day with his all new single '**Tor Isharay**' that dropped on **Ministry of Muzik's** youtube channel recently on the occasion of Valentine's Day. Composed by **Shiladitya Chaudhury**, the heartwarming song, positioned as '**Bhinno Premer Kahini**', is vividly shot in Amadpur Baithakkhana situated in Burdwan.

The song, entirely conceptualized by Shiladitya, narrates the story of two souls from different religion trying to find a way out in Love but finding several hurdles on their way more so, as the boy is from a middle-class background and the girl comes from a rich family. Their families later get into their budding relationship and the song ends in a tragic note.

"**Bhinno Premer Kahini** tells us the story of inter-faith love. We wanted to harp on the point that Love is beyond any religion. I am delighted to have worked with Nachiketa for the first time, whose mellifluous voice made '**Tor Isharay**' more honeyed. The song is the perfect milieu of multiple melodies; the joyful union of Indian Sahnai with Arabic tunes makes the entire listening experience pleasant. I sincerely hope the song will touch the listeners' emotional chord and will leave a lasting impression", said **Music Director, Mr Shiladitya Chaudhury**.

The song, written by **Saikat Chattopadhyay** is being produced by **Ministry of Muzik** and now available in its Youtube Channel along with other prominent musical platforms. **Som Chakraborty** has directed the Music Video besides providing Sound Direction, Additional Screenplay, Video Editing, Music Arrangements and Mix Master. **Palash Tarafdar** is the cinematographer. In the coming days, **Ministry of Muzik** will keep showcasing some brilliant musical works by some of the legends of the musical arena and will also provide platform to the emerging talents as well.
